

Protection of Personal

Information Policy

Logistique Canamex Inc. and Canaroute Inc. support the new legislative provisions regarding the protection of personal information in the private sector, also known as Bill 25. This reform modernizes the rules protecting personal information in Quebec to better adapt to the new challenges posed by the current digital and technological environment. The implementation of this law begins on September 22, 2022, and will gradually extend until September 22, 2024.

Logistique Canamex Inc. and Canaroute Inc. have always been concerned with establishing and applying rules and procedures for collecting, using, disclosing, and retaining personal information. All aim to prevent unauthorized access to confidential personal information collected from customers, partners and employees.

If you have any questions about our privacy policy information, you can contact Ms. Sylvie Giguère, controller and responsible of the Protection of Personal Information Policy.

*It is important to note that despite all the measures put in place to protect the personal information we hold, there is a risk that these pieces of information may be intercepted by third parties during an unauthorized intrusion into our computer systems.
